

THE LITTLE TROUBLES GET BY

Humanity takes little heed of little things. That is largely why life is short. We guard against the danger of infection when it has developed into something we fear, like smallpox or diphtheria, but the insignificant microbes, which are primarily responsible for nearly every form of malignant disease, get by.

It enters our system most frequently through the mouth, and while the most ordinary precaution would end its pernicious activity, it is too often allowed to continue on its errand of misery. Get in the habit of using an antiseptic mouth wash and gargle night and morning. It will exterminate germ life and do more to preserve your health and prevent disease than any other precautionary measure.

Your doctor will tell you this is true. The best antiseptic to use is LISTS-TOGEN. It goes farther than Peroxide of Hydrogen by uniting with that most efficient germ destroyer, the remedial and antiseptic properties of Thymol, Menthol, and Eucalyptol, which take up the work where Peroxide of Hydrogen leaves off, and not only destroy the germ, but in some degree repair the damage that has been done.

Ask your druggist for LISTS-TOGEN. It is a most valuable preparation. 25 cents, 50 cents, and \$1 a bottle. At Meek Drug Store, 204 G Street, N.W. and D Street, Fifteenth and F Streets.

MORE OPPOSITION TO THREE TREATIES

Many Senators Side with Chamberlain in Opposition to Ratification of Pact.

GENERAL ATTACK DEVELOPS

Another unsuccessful effort was made yesterday in the executive session of the Senate to ratify the arbitration treaties with Great Britain, Spain, and Italy. The opposition had increased, and Senator Chamberlain of Oregon, whose objection prevented the ratification Thursday, and who stood practically alone at that time, yesterday found himself ably supported. Among the Senators who spoke in opposition to the treaty were O'Gorman, Crawford, Works, Newlands, Lewis, Comer, Borah, Brewster, and others. Even Senator Bacon admitted that the treaties might be open to objection. Yesterday the opposition, which was confined almost entirely to Senator Chamberlain, was grounded in the fact that under the treaty, if ratified, the United States would be compelled to arbitrate the Panama Canal tolls matter. Yesterday there was a general attack on all arbitration treaties, and the suggestion was made by several Senators that our diplomatic representatives had been too ready to bind the United States by such treaties and in many instances had conceded too much.

Senator Works of California for the first time introduced the Japanese question. He declared that the United States was now seriously handicapped in its domestic affairs, as the result of its treaty obligations, entered into without proper deliberation. He declared that the recent Japanese trouble proved this fact. Our State Department, according to the Senator, had tied the country in a treaty with Japan which had seriously embarrassed the sovereign States in the control of their domestic affairs, and that the Federal government was left in a position on account of the treaty by which it could not come to the relief of the States. At the conclusion of more than an hour of earnest debate, the treaties again went over and the Senate adjourned. Senator Chamberlain of Oregon said last night that the arbitration treaties in their present form could not be ratified.

LINDBERGH DECLARES FOR OPEN SESSIONS

Minnesota Representative Offers Resolution Opening Banking and Currency Hearings to Public.

Representative Lindbergh of Minnesota, the Bill Moose member, has stirred up an issue in the Banking and Currency Committee that may provoke a good deal of trouble before it is settled. At the initial meeting of the committee, held yesterday for purposes of organization, Mr. Lindbergh presented a resolution providing that all committee hearings and sessions should be open to the press and the public.

Representative Korbly of Indiana, a Democrat, moved that the resolution be tabled. This motion was defeated by an overwhelming vote. Thereupon the Lindbergh resolution was referred to a subcommittee of five, of which Representative Bullock of Ohio is chairman. This subcommittee will give Mr. Lindbergh a hearing.

Chairman Glass and other leaders are opposed to opening the sessions of the committee to the public. They are particularly hostile to the idea just at the present time when the committee is called upon to report a banking and currency bill to the House.

Mr. Lindbergh is an advocate of publicity of all legislative machinery, and he believes that there is a chance of a sufficient number of Democrats and Republicans joining with him in the demand to force the Committee on Banking and Currency to do its business in the open.

HINEBAUGH ATTACKS FRISCO'S AFFAIRS

Illinois Congressman Says It Is Duty of Congress to Authorize Railroad Investigation.

Although the Democratic leaders are opposed to such a move, there is a possibility that a special inquiry may be ordered by the House into the circumstances surrounding the St. Louis and San Francisco Railroad receivership.

The question was again directed to the attention of the House yesterday by Representative Hinebaugh of Illinois, who delivered a speech in which he severely criticized B. F. Yankton and others identified with "Frisco" affairs. Mr. Hinebaugh, who presented early in the week a resolution authorizing the Interstate Commerce Commission to probe the operations of the Frisco, characterized the system as "a tremendous jobbing scheme to enrich the men who have been in a position to manipulate its securities."

Mr. Hinebaugh declared that the Frisco receivership had seriously injured "legitimate American securities abroad," and he insisted that it was the duty of Congress to authorize an investigation. He quoted Justice C. Clemen, a member of the Interstate Commerce Commission, as saying that the commission had authority to probe the Frisco receivership. Mr. Hinebaugh expressed the opinion that Congress should specifically authorize the commission to proceed.

In the Senate yesterday Senator Kenyon of Iowa presented a resolution providing for the appointment of a committee to make an inquiry into the management of the Frisco and the causes that resulted in the system being placed in the hands of a receiver.

ALASKAN BILL AGREED UPON

Senate Committee Frames Railroad Measure for Territory.

A bill appropriating \$40,000,000 for the construction of Alaskan railways, providing for the condemnation by the government of existing railroads, and giving the President the widest latitude in selecting routes has been agreed upon by a subcommittee of the Senate Territories Committee.

It was expected that the bill would be reported to the full committee yesterday, but Chairman Pittman postponed the meeting, saying he did so because Senators Walsh and Nelson, who are members of the Lobby Inquiry Committee, could not be present. The subcommittee also has provided in the bill that 75 per cent, instead of 50 per cent of the cost of the railroad shall be paid from the proceeds of the sale of public lands. The bill does not specify the number of miles to be built and practically leaves all details in the hands of President Wilson.

Senate Confirms Damnett.

The Senate yesterday confirmed the nomination of Anthony Damnett, of California, to be commissioner general of immigration; Luke Voorhes, of Wyoming, to be receiver of public moneys at Cheyenne, Wyo.; Edward A. Fitzhugh, of Washington State, to be surveyor general of Washington State; Ralph R. Reed, of Wyoming, to be registrar of the land office at Buffalo, Wyo.; and Charles M. Bruce, of Virginia, to be assistant commissioner of the general land office.

Where Did \$150,000 Worth of House Patronage Go?

The Democrats of the House yesterday appointed a committee consisting of Representatives Humphreys of Mississippi, Covington of Maryland, and Doremus of Michigan to investigate the manner in which the \$150,000 worth of House patronage has been divided up.

The committee will locate every page, doorkeeper, barber, clerk, messenger, carpenter, plumber, janitor, and other employees, and make a report on how each of them got his job. The idea is Representative "Alfalfa Bill" Murray's.

SAY WAR TALK IS QUITE ABSURD

sponsive chord in the hearts of all thinking men on both sides of the Pacific."

Secretary Bryan said: "I am here for a double purpose. First, to introduce two distinguished gentlemen, His Excellency Viscount Chinda, who, with such ability and distinction, represents Japan at the Capital of our nation, and Ambassador Guthrie, to whom has been given the honor of representing the United States at Tokyo."

"The second purpose of my visit is to pay my respects and to express my personal regard for these gentlemen who are entrusted with the honorable and responsible mission of representing the two countries so long and intimately united in the bonds of friendship. I have had opportunity to renew in this country an acquaintance with his excellency, the Japanese Ambassador, which began nearly eight years ago in his far-away home. I feel that both his country and ours are fortunate in having in the diplomatic service one so fully equipped for the duties that fall to an ambassador."

"While no one could surpass him in devotion to the interests of his countrymen, it would be equally impossible to surpass him in the courtesy and kindness of spirit which are so valuable in international affairs. He has set so high a standard that the President had been careful to select as our representative to Japan a man of the highest character, of large experience, and sincerely appreciative of the greatness and the progress of the country to which he goes."

"I am sure that Mr. Guthrie will meet the most exacting requirements of his great office, and that the delightful occasion of his participation tonight may be regarded as fittingly representing the amicable international relations which it will be the pleasure of these two gentlemen to maintain and strengthen."

Japanese Demand Citizenship Rights In Reply to Bryan

Tokyo, June 6.—That the passiveness of the United States government in relation to the California anti-alien law violates the Japanese-American treaty of 1911 and that the California law in itself is a violation of the fourteenth amendment to the United States Constitution are the chief points made in Japanese rejoinders to the United States note on the subject. This information was secured at the foreign office today. The government has postponed its speedy reply to the proposal of Secretary of State Bryan that the dispute be submitted to The Hague. Tanaka Yamamoto intimated today that Japan would refuse to participate in the Panama-Pacific Exposition in San Francisco in 1915.

NAVAL INCREASE WANTED

Graham Would Authorize Three New Battleships.

A bill for the immediate construction of three battleships was introduced in the House yesterday by Representative Graham, a Pennsylvania Republican. The Graham bill authorizes the President to contract for three new Dreadnoughts, to cost not more than \$6,000,000 apiece, exclusive of armament and armor. The bill was referred to the Committee on Naval Affairs.

EAGLES ENTERTAIN "BIRDS."

Washington Eagles last night entertained a large flock of birds of their feather from Baltimore and other cities at a crab dinner at the Eagles' Hall, the affair being held to raise a fund to send the Washington birds to Baltimore on August 4 to attend the national convention. There were between 500 and 600 present.

A session of the Marine Band furnished music, and there was a vaudeville bill, in which the following appeared: Wilson Oliver and Peter White, in songs; Harry Hill, in a musical specialty; Edward Coughlin, in monologue, and Gene Taylor, in fancy dancing. Myer Stern played the piano.

The Washington Eagles plan to hold "Eagles' Day" at Marshall Hall Monday. The committee has charge of the affair of last night was headed by William E. Evans.

Alleged Deserter Brought Back.

Howard W. Boyden, indicted on the charge of failure to support his wife and five minor children, was brought here yesterday from Cleveland, Ohio, and turned over to United States Marshal Palmer. It is alleged that Boyden left his home at 35 O Street Northeast last February.

RUCKER OFFERS HOPE TO BRYAN AND CLARK

Missouri Representative Offers One- Presidential Term Amendment in the House.

THREE MEN ARE DISBARRED

Politics bearing on the Democratic Presidential nomination in 1916 is said to be concealed in a resolution introduced yesterday by Representative Rucker of Missouri, who supported Champ Clark in the Baltimore convention. This resolution proposes an amendment to the Constitution, limiting the tenure of the President to a term of six years, and making ineligible for re-election any man who has occupied the office. Three men are concerned in this measure. If adopted, it would bar Col. Roosevelt, Judge Taft, and President Woodrow Wilson from re-election.

The single-term idea was considered in the last Congress. At one time it looked as if the resolution then under consideration would be adopted. For some reason that was not explained, the measure was pigeon-holed by the House Committee on the Judiciary, controlled by the Democrats, after it had been passed by the Republican Senate. There were reports at the time that the resolution was tabled at the instance of Gov. Wilson.

At least two Democrats are interested in the attitude of President Wilson toward the 1916 nomination. The platform upon which he ran declared for a single term. The President has not indicated in a public way whether he will be a candidate to succeed himself. It is recalled that Mr. Bryan repeatedly directed attention to the single term declaration in the course of speeches that he made on the stump last year. Speaker Clark naturally has faith in the principle.

The resolution was referred to the Committee on the Election of President, of which Mr. Rucker is chairman. It is the understanding that Mr. Rucker will make every effort to have the resolution reported early in the December session.

REGIMENT PLANS REUNION.

First District of Columbia Infantry to Go to Chesapeake Beach.

Plans for the holding of the first reunion of the First District of Columbia Infantry Association of Spanish War Veterans on July 17 at Chesapeake Beach, the fifteenth anniversary of the surrender of Santiago, Cuba, were discussed last night at a meeting held in the office of Representative L. C. Dyer, Maj. C. V. Sayer, chairman of the special committee in charge of the arrangements, was authorized to make final arrangements for the holding of the reunion.

Capt. R. D. Simms was elected president for the ensuing year. Announcement was made that the regimental colors, now at the militia headquarters, would be turned over to the regiment in the near future. W. H. Ohm, of Company F, presented to the association all clippings from the newspapers relative to the regiment, from the time they were mustered in until they were discharged. Reports were received from the officers and enlisted men engaged in ascertaining the names and addresses of members of the regiment residing in Washington.

CHILD HAS NARROW ESCAPE.

Hilbert Rubin, the two-year-old grand son of Emanuel Speich, of 260 Sixteenth Street Northwest, figured in a remarkable accident yesterday afternoon about 4 o'clock at Park Road and Sixteenth Street. The child was thrown from his grandfather's automobile, which had stopped suddenly to avoid a collision with a wagon. He was precipitated over the hood of the machine, striking the fender, and rolling out onto the street unharmed. Fearing that the child had been seriously hurt he was carried to physician. An examination failed to disclose he was any the worse for his experience.
